

## Board Member Bio

### **Nancy Magnusson**

We were charmed by the ambiance of Mary Fox Park. The people were so kind and our dog made several friends while we were on a 2 month stay in Albuquerque to test the waters. My spouse, a died in the wool ocean loving New Englander said that if we could live in the DNA neighborhood he would gladly relocate.

As a Board member, I work to maintain and spread this friendly supportive community atmosphere throughout our neighborhood.

Skills: Artist, Organizer, Project Manager. And retired IT guru.
